Mrs. Homer Scott of this city presented her husband with a daughter Saturday that is probably the smallest mite ever born in our county. Although perfectly formed, apparently healthy, active and with considerable strength, the little Miss only weighs one pound and 15 ounces. Her total length is only 14 inches; her arm is not longer than the average woman's fingers, and measures 2 inches around and is 5 inches long; the head is 10 inches in circumference. This child is much smaller than many babies that are raised in an incubator.—Carrollton Democrat.

DECORATION DAY

A Beautiful and Appropriate Custom.

The custom of decorating the graves of the soldiers who lost their lives in wars of the United States originated during the civil war, at first by villages and local societies, then by counties and later states adopted the custom, until finally through the co-operation of the president and the governors of the various states, a day was set aside by common consent on which the people gather and place flowers upon the graves of the dead and engage in other acts in memory of those who risked their lives in defense of home and country. May 30th is the day set apart for this beautiful and appropriate custom. In this part of the country the graves of all soldiers are decorated the gray and the blue alike. Lodges and societies of various kinds engage in these ceremonies, in fact most every body takes time to place a flower and frequently drop a tear upon the grave of a loved one who has gone to the great beyond. For several years past the survivors of the civil war have gathered at the cemeteries of this neighborhood to decorate the graves of the blue and the gray. No distinction is shown and it forms a pathetic scene to observe the aged survivors of a fierce struggle of half century ago as they mingle to honor the memory of their dead. It seems good and very appropriate that we observe the 30th day of this month in memory of the dead.

A Great Success.

"Romeo and Juliet" was presented at the public school auditorium Monday evening by home talent under the direction of Miss Kathryn Bone.

The entertainment was certainly a success from every standpoint. The play was under the auspices of the Century Club, of this city, for the benefit of the Chautauqua fund and was under the supervision of Miss Bone, who, as usual, proved herself an organizer of more than ordinary ability. The proceeds amounted to something over a hundred dollars.

A Ball Team.

The Monroe City Base Ball players and fans have arranged for a series of games here during the season. A good strong team has been organized, and suits ordered. The fair grounds have been secured as the place to play. Monroe has many enthusiastic ball base people and with a good strong team here we see no reason why several hotly contested games should not be played here.
